Re: recommendation for Frank Schalk

To whom it may concern,

I'm pleased to recommend Frank Schalk to your company. By way of background, I was the Director of the Film School for the Academy of Art University in San Francisco for 8 years, prior to becoming their VP and Creative Director of On-Air. It was during my tenure as the latter that Frank Schalk was my assistant from October 2004 to June 2006. His primary responsibilities were to oversee and handle interdepartmental communication, and assist me with post-production.

I found Frank to be both personable and flexible in his attitude. He is facile at learning or mastering digital media software such as DVD StudioPro on the job. He also created background scoring for commercials using GarageBand and ProTools, assisted with voice talent and audio recording, converted digital media files (to mpeg formats), and used Camtasia Video Screen Capture in his work for the Academy of Art University.

I have been an independent producer for the Academy since April 15, 2007; in this new capacity I have employed Frank on a freelance basis, to help me acquire DVD footage as well as create and author DVDs with multiple menus and chapters.

Sincerely,

David O. Pfeil
